OFFICE OF AEROSPACE RESEARCH
UNITED STATES AIR FORCE
WASHINGTON 25, D. C.

OFFICE OF THE
COMMANDER

23 AUG 1963

Dr Herbert Scoville, Jr
2430 E Street, NW
Washington 25, DC

Dear Dr Scoville

I extend a cordial invitation to you as a member of the President's Science Advisory Committee, to attend the Tenth Annual Air Force Science and Engineering Symposium. The Office of Aerospace Research (OAR) is the host sponsor this year in cooperation with the Air Force Systems Command (AFSC). The Symposium will be held at the United States Air Force Academy on the 8th, 9th and 10th of October 1963.

In addition to the regular program this year, we of OAR are dedicating our newest research laboratory. This laboratory is being named for the late Colonel Frank J. Seiler, one of the Air Force's most outstanding research and development officers. The dedication will take place as a part of the annual awards banquet which will be held at the Officers Club on the evening of 9 October.

This Symposium is in keeping with our aims of emphasizing the over-all in-house capabilities of OAR and AFSC and of demonstrating the effectiveness of the Air Force laboratories. It is designed to promote the initiative and demonstrate the capabilities of Air Force scientists and engineers to accomplish research and development efforts of superior quality. The attached tentative program indicates the nature and scope of this year's Symposium.

I would be honored by your acceptance of this invitation and will provide any additional information you may desire.

Sincerely

DON R. OSTRANDER
Major General, USAF
Commander
